SHARE YOUR POINT OF VIEW

1. What inspired you to become part of your school's student leadership or activities program? What motivated you to step forward when others may not have?

2. What leadership skills would you like to strengthen this year so you can have a greater impact on your campus? (Think about communication, teamwork, confidence, organization, or something else)

3. In your opinion, what role should student leaders play in shaping the culture and experience of students on your campus?

4. What are two areas where your student council or leadership group could improve in order to create a more positive and engaging campus environment?

5. Every leader hits a low point during the year. What helps you stay motivated and re-energized when things get challenging?
